Portfolio: raza-devx.github.io/portfolio

Profile Summary

A passionate WordPress Developer with 2.5 years of hands-on experience crafting dynamic, responsive, and user-friendly digital experiences. Skilled in custom theme development, plugin creation, databases, MySQL, PHP, HTML, CSS, JavaScript, and building custom dashboards without relying on premium plugins.

Skills

• WordPress Development (Themes, Plugins, Custom Post Types)
• PHP, MySQL, HTML, CSS, JavaScript
• UI/UX & Responsive Web Design
• Custom Dashboards & Frontend Systems
• WooCommerce Setup & Optimization
• React (Learning phase)
• Performance optimization & SEO-friendly development

Experience

WordPress Developer
Worked on building custom websites, developing plugins, structuring databases, and crafting high-quality UI/UX-focused interfaces. Collaborated with backend developers to create fully custom dashboards and software-like systems using WordPress as a framework.

Projects

• Built multiple full-stack WordPress websites with custom design systems
• Developed a custom software dashboard using WordPress + custom database
• Created WooCommerce solutions with product imports, variations, and performance-tuned stores
• Designed interactive UI components with JavaScript

Education

Bachelor's (Details not provided; can be updated)
